Research Interests

Computational Linguistics; Natural Language Processing; Large Language Models; Computational Emotion Modeling; Context-Aware NLP; Computational Literary Studies; Structured Emotion Representation; Corpus Annotation; Model Evaluation and Error Analysis.

Doctoral Research

Context-Aware Emotion Detection and Reasoning in Literary Texts Using Large Language Models

Implicit Emotion, Narrative Context, and Cognitive Appraisal

My doctoral research examines how Large Language Models can identify and reason about emotions in literary narrative when emotional meaning is implicit, context-dependent, and distributed across characters and events. The study focuses on the representation and evaluation of emotion in text, including narrative context, experiencer and emotion-cause relations, cognitive appraisal, evidence-grounded interpretation, corpus annotation, and the analysis of model behaviour and errors.

Education

PhD Candidate - Department of Information Science

Ionian University, Corfu, Greece

Doctoral research: Context-Aware Emotion Detection and Reasoning in Literary Texts Using Large Language Models

MSc in Information Science

2006-2008

Ionian University, Department of Archives and Library Science

Grade: 9.00/10 | Thesis grade: 10.00/10

Master's thesis: *Personalization and Content-Based Cross-Language Information Retrieval*

Explores personalization, user modelling, cross-language information retrieval, web mining, and personalised e-learning, with particular emphasis on the PELAS system and the role of academic libraries in personalised information services.

Degree in Library Science and Information Systems

2000-2004

Technological Educational Institute of Athens, Department of Library Science and Information Systems

Grade: 7.02/10 | Thesis grade: 10.00/10

Undergraduate thesis: *Digital Libraries and an Overview of Greenstone Digital Library Software*

Examines digital library architecture and core technical components, including collection organisation, metadata, indexing, search and retrieval, digital object management, and the relationship of these functions to digital repository development.

Publications and Conference Papers

Kalogeros, E., Rodi, M., Stamou, S., Micheli, A., Karakitsiou, C., & Gergatsoulis, M. (2026). *Chasing emotion: A preliminary study of implicit and explicit emotion classification in Greek using SetFit and sentence embeddings.*

Paper accepted for presentation at the 12th Balkan Conference in Informatics (BCI 2026), Thessaloniki, Greece, 11-14 October 2026.

Solomonidi, I., Rodi, A., & Tsononas, G. (2025). *Enabling discovery: Open access to rare historical maps and 19th-century Greek journals from the Gennadius Library collection via the library's catalogue*. Paper presented at the EEBEP Conference 2025, Kalabaka, Greece, 11-13 June 2025. Manuscript submitted for inclusion in the conference proceedings.

Giannakopoulos, G., Gkouvousi, A., Belsis, P., Paliouras, G., Papatheodorou, C., Rodi, A., & Skourlas, C. (2007). *Εξατομίκευση διδασκαλίας και πληροφόρησης στην ανώτατη εκπαίδευση* [Personalization of teaching and information provision in higher education]. *e-Journal of Science & Technology*, 2(3), 1-18.

Professional Experience

Assistant Librarian, Periodicals

2014-Present

The Gennadius Library, American School of Classical Studies at Athens, Greece

- Manage periodicals workflows in ALEPH 24, including check-in, metadata standardisation, RFID processing, claims for donated periodicals, and binding preparation and follow-up.
- Perform original and copy cataloguing of donations from private collections.
- Contribute to collection development through acquisition recommendations and the evaluation and coordination of donated materials.
- Provide reference services and orientations for new library patrons.

Serials Cataloguer

2007-2014

The Gennadius Library, American School of Classical Studies at Athens, Greece

- Catalogued the entire periodicals collection in ALEPH 24, including retrospective cataloguing of Greek and foreign periodicals and newspapers.
- Enhanced catalogue records with electronic resources and descriptions of supplementary material found within periodical publications.
- Documented inserts preserved within periodical volumes, including correspondence between Joannes Gennadius and publishers.

Database Assistant

2007

Information Office, Pedagogical Institute

- Entered, updated, and checked information in the Institute's database.

Administrative Records Assistant

2006-2007

Municipality of Piraeus

- Assisted with the organisation and physical arrangement of paper records for a municipal department.

Library Intern - Six-Month Internship

2004-2005

National and Kapodistrian University of Athens, Department of Informatics and Telecommunications

- Performed retrospective cataloguing of periodicals and recorded current subscriptions in the University's union catalogue using the Horizon library system and UNIMARC.

Professional Project

Enabling Discovery: Open Access to Rare Historical Maps and 19th-Century Greek Journals from the Gennadius Library Collection via the Library's Catalogue

My contribution: *Discovering 19th-Century Greek Periodicals through the Scrapbooks of Joannes Gennadius*

Focuses on the cataloguing and digital accessibility of rare 19th-century Greek newspapers and periodicals preserved in the scrapbooks of Joannes Gennadius, including digital object preparation, MARC 21 cataloguing in ALEPH 24, integration with the AMBROSIA catalogue, and development of an internal catalogue for managing the digitised collection.

Presented as part of the EEBEP Conference 2025 paper.

Technical Skills

Experienced in bibliographic and metadata standards including MARC 21, UNIMARC, Dublin Core, VRA Core, BIBFRAME, EAD, and RDF, together with library data exchange and interoperability standards such as ISO 2709 and Z39.50. Knowledge of AACR2, RDA, ISBD, LCSH, LCC, DDC, and authority control.

Practical experience with integrated library systems and digital repository platforms, including ALEPH 24, Horizon, Millennium, ABEKT, OpenABEKT, ADVANCE, Koha, and DSpace.

Experience with digital object management, digitisation workflows, metadata standardisation, serials and holdings management, and the organisation and linking of digital collections within library discovery environments.

Technical knowledge of HTML and XML, with intermediate-level Python and SQL.

Professional Development

Introduction to Programming with Python

2025

University of Ioannina, Center for Continuing Education and Lifelong Learning

Certificate of Completion | 60 hours | Distance learning

Object-Oriented Analysis and Modeling with UML

2007-2008

Technological Educational Institute of Lamia, Department of Computer Science & Computer Technology

Online training course
